Valve Actuators

VA-7010 ON/OFF Terminal Unit Valve Actuators

**VA-7010
ON/OFF Terminal Unit
Valve Actuators**

Dimensions in mm (inches)

Description

The VA-7010 electric on/off actuator provides a two-position (open-closed) control and can easily be mounted with a threaded coupling onto VG5000 terminal unit valves. A lever at the side of the actuator housing can be used to manually open a 2-way PDT0 valve, or the normally closed port of a 3-way valve.

Features

- 24 VAC and 230 VAC models
- ON/OFF Control
- Manual lever
- Threaded mounting nut
- Factory mounted cable 1.2 m

Selection Table

Supply Voltage (50/60Hz)	Action Control	Force	Stroke	Full Stroke Time	Protection Class	Power Consumption	Ordering Codes
24 VAC	ON/OFF	90 N	3 mm (max. 5 mm)	10 s (Actuator stem extends)	IP 40	7 VA	VA-7010-8101
230 VAC				5 s (Actuator stem retracts)			VA-7010-8103
